Project Demo Planning

Treavue — Personalized Travel Itinerary Planner

Project documentation prepared for portfolio and repository use

Duration

Approximately 4–5 minutes.

0:00–0:25

Introduce Treavue and the travel-planning problem.

0:25–0:55

Show homepage and destination exploration.

0:55–1:55

Create a trip and enter preferences; generate the itinerary.

1:55–2:35

Show daily activities and practical ordering.

2:35–3:00

Show budget and explain estimates.

3:00–3:40

Demonstrate trip saving and editing.

3:40–4:05

Show chat if available.

4:05–4:30

Explain frontend, backend, and database stack.

4:30–4:50

Summarize benefits, limitations, and future work.

Preparation

Test the app, prepare one sample trip, ensure API services are running, close unrelated tabs, and record a clean screen without secrets.
